Editors Comments;

We have succeeded this year in involving more students than ever before in every facet of the magazine's creation, writing and layout. It truly is a students magazine both by them and for them. From the start Alicia Camphuisen, Donella Boyd and later John Ward worked very hard on the photography. Legions of students helped out in raising funds by getting businesses to sponsor or advertise in the magazine.

A team of students was involved in gathering stories from throughout the school. Then there was the typing onto computer, and again students performed the bulk of this work.

Finally Miri Seivers and Ursula Szafraniec headed the very hard working layout team which assembled the magazine, did the art work, created the ads and polished it all. Sarah Brown and Anthony Ball created the front and back covers. The school community owes a debt of thanks to the following students:-

Anthony Ball	Naomi Bowers	Donella Boyd
Sarah Brown	Maria Calibo	Alicia Camphuisen
Julie Francis	Cristie Fuller	Alleena Green
Sylyia Hukau	Madonna Lee-Newhan	Hayley Markwich
Kylie McKenzie	Sunny Munn	Charlotte Newman
Janette Quinn	Cathy Seilheimer	Miri Seivers
Zorano Sekulic	Matthew Slater	Leigh Stewart
Joanne Stinson	Carly Storie	Ursula Szafraniec
Donna Timms	Lyjelle Tinsley	Chantelle Vella
Danielle Warby	John Ward	

We would like to thank our sponsors and those who advertised in the magazine for their support for our magazine.

PRINCIPAL'S REPORT.

As the school year draws to a close we should all reflect upon the changes that have taken place.

On the material side we have seen a large amount of work performed to improve the physical side of the school. While this has only been external all should be proud of and be prepared to look after what we have. A large amount of money has been spent to give you a pleasant environment in which to work and play. Much more needs to be done and plans are in motion to beautify more of the playground area and purchase more playground equipment.

We have, for many years, been decreasing in pupil numbers. This should be the last year that the school will suffer this problem. It is expected that our student population will increase over the next few years.

On the personal side all should consider whether they have made the effort required to gain the maximum from their schooling. When I look at your reports I see that the great majority have done just that. I congratulate you for your efforts. In these most difficult of economic times you will need all the educational qualifications you can acquire to prepare yourself for the future. Keep up the excellent work, you can only benefit from it in the long run. The school can only do so much for you; it is from your efforts that the main results will flow.

A number of students will leave school at the end of this year. To you people we all wish you all the best in your forthcoming examinations and in your future. To those returning to school, maintain your present excellent attitude towards your school and towards your work.
